

Price Guide for Support at Home Services

Prices are effective from 1 April 2026

Care Management

If you are receiving ongoing services through the Support at Home program (this does not apply to participants on the Restorative Care or End-of-Life pathways), please note that 10% of your quarterly budget will be set aside for care management.

This portion of your budget is allocated to your service provider to support care management activities. These include things like coordinating your services, monitoring your wellbeing, and making sure your support plan continues to meet your need.
